

Textile/Clothes Balers

The Used Clothes Lifting Chamber Baler has the characteristics of high Baling Press density, beautiful package shape, simple installation and easy operation. After the clothes baler is packed and compressed, it can also reduce labor intensity. Save manpower and material resources, occupy a small area, reduce transportation costs and other advantages.

Features

- Hydraulic lifting chamber door improves the work efficiency, conveniently for packaging and the ‘# ‘tying
- The ram will stop running downwards when the feeding gate is opened which ensure the safety of the operation
- Equipped with independent emergency stop for safe operation
- Special ram guides design makes the platen not slope because of uneven materials feedings during compression

Model	NK30LT
Hydraulic power	30Ton
Packaging size (L*W*H)	600*400*400-600 mm
Feed opening size (L*H)	600*460mm
Chamber Size (L*W*H)	600*400*1200 mm
Bale weight	45-100Kg
Capacity	12-15 Bale/hour
System Pressure	25Mpa
Packing materials	Cross packing
Packing way	Front-Back 4 pcs/ Left-Right 2 pcs
Voltage (can be customized)	380V/50HZ
Power	11KW/15HP
Machine size (L*W*H)	1300*760*3780mm
Weight	1800Kg
